Los Angeles, CA (Jan. 19, 2026) – AlxCrypto Inc. (AlxC), an advanced interactive platform bridging Web2 to Web3 with Embodied AI (EAI) and Real World Asset (RWA), today shared a weekly business update from Jerry Wang, Co-CEO of AlxC.

First, on EAI & RWA ecosystem and product execution.

We officially launched AlxC Hub and its first competitive season, Arena. AlxC Hub serves as the core interactive platform of our ecosystem. The first Arena season marks the debut of an education-driven, season-based competitive framework centered on Real World Assets and Embodied AI. Through structured activities, users earn points, rankings, and progressively deepen their understanding of the AlxC ecosystem.

Second, on tokenization and Real World Assets.

We have entered into a non-binding term sheet, facilitated by an independent third party, to purchase an initial \$10 million tranche of Faraday Future common stock. This represents a strategic deployment of AlxC's blockchain infrastructure and marks a significant step toward the launch of our tokenized Real World Asset business. If definitive agreements are executed, AlxC intends to utilize these shares as the foundational asset for its first tokenized RWA product.

Finally, we've appointed Tina Nematbakhsh as Head of Community & User Acquisition. She will tap into new KOL and creator partnerships, drive AlxC Hub user growth, and support broader ecosystem expansion."
