AIxCrypto and FF AI-Robotics Announce Strategic Partnership to Explore Web3 Infrastructure for Embodied AI

February 5, 2026

LOS ANGELES, Feb. 5, 2026 /PRNewswire/ -- AIxCrypto Inc. (NASDAQ: AIXC , "AIxC" or the "Company"), a U.S.-Nasdaq listed company dedicated to building an ecosystem that integrates AI and blockchain while bridging Web2 and Web3, today announced a strategic partnership with FF AI-Robotics Inc. The announcement follows Faraday Future's (NASDAQ: FFAI , "FF") public unveiling of its embodied AI (EAI) robotics strategy and product lineup at the National Automobile Dealers Association (NADA) 2026 conference.

AIxC is focused on building infrastructure that bridges Web2 and Web3 while supporting real-world applications of artificial intelligence. Through this collaboration, the parties will explore how decentralized identity, settlement, and data-ownership frameworks may support intelligent vehicles, robotics platforms, and other EAI devices. The framework collaboration is non-exclusive and exploratory and does not constitute a joint venture, acquisition, or revenue-sharing agreement.

Key focus areas of the collaboration include:

- Assessing the applicability of native decentralized identity (DID) protocols in EAI and robotics contexts, and exploring the establishment of verifiable, traceable on-chain identities for intelligent devices to provide a trusted foundation for data flows, task coordination, and value distribution.
- Evaluating blockchain-based mechanisms for task dispatch, contribution tracking, and incentive distribution, including potential applications of wallet-connected workflows and on-chain settlement across robotics, intelligent mobility, and connected endpoints.
- Exploring protocol-level mechanisms that support privacy-preserving data sovereignty, data verification, and coordination in EAI scenarios, in conjunction with developer platforms that enable data and capability access, composition, and application-layer integration, including potential RWA-related applications where appropriate.
- Exploring collaborative opportunities across intelligent vehicles, robotics, and connected devices that align AIxC's Web3 architecture with FF's EAI platforms, while fostering developer participation through ecosystem support and incentive mechanisms around EAI blockchain infrastructure and application-layer development.

"This collaboration reflects our ongoing focus on infrastructure-first exploration at the intersection of AI and Web3," said Jerry Wang, Co-CEO of AIxCrypto Inc. "As EAI systems continue to evolve, we believe it is important to responsibly explore how decentralized technologies can support data ownership, verification, and long-term ecosystem alignment. Working with FF AI-Robotics provides an opportunity to evaluate these concepts in real-world contexts."

The collaboration is intended to complement FF's EAI roadmap revealed at NADA 2026, where the company showcased intelligent mobility platforms and robotic assistants. AIxC plans to leverage its developer ecosystem and RWA-oriented frameworks where appropriate to support future experimentation in blockchain-enabled EAI device scenarios, consistent with the Company's ongoing focus on regulatory compliance, security, and user-centric design.

About AIxCrypto:

AIxCrypto is a U.S. Nasdaq-listed company dedicated to building a world-leading ecosystem that integrates AI and blockchain while bridging Web2 and Web3. Its core products include the BesTrade DeAI Agent and the AIxC ecosystem products.

About FF AI-Robotics Inc.

FF AI-Robotics Inc. is a robotics-focused operating entity established within the Faraday Future ecosystem to advance its embodied artificial intelligence (EAI) strategy. The company focuses on the development and commercialization of embodied AI devices that integrate intelligence, autonomy, and physical interaction in real-world environments.

FF AI-Robotics is building a multi-form EAI product portfolio spanning full-size humanoid robots, athletic humanoid robots, quadruped robots, and intelligent vehicle-integrated EAI systems. These devices are designed to support professional, commercial, industrial, and household applications, reflecting Faraday Future's view that intelligent vehicles and robots are both embodied AI endpoints.

The company operates under a "three-in-one" EAI ecosystem strategy that combines EAI devices, an open EAI Brain and developer platform, and decentralized data frameworks. This architecture is intended to enable scalable deployment, continuous learning, cross-device collaboration, and ecosystem co-creation across multiple robot forms and usage scenarios.

Headquartered in California, FF AI-Robotics focuses on translating embodied AI capabilities into practical value through responsible deployment, open ecosystem collaboration, and real-world usability.

FORWARD LOOKING STATEMENTS:

This press release contains "forward-looking statements", including statements regarding AIxCrypto Holdings, Inc. ("AIxCrypto") within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. All of the statements in this press release, including financial projections, whether written or oral, that refer to expected or anticipated future actions and results of AIxCrypto are forward-looking statements. In addition, any statements that refer to expectations, projections, or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements reflect our current projections and expectations about future events as of the date of this presentation. AIxCrypto cannot give any assurance that such forward-looking statements and financial projections will prove to be correct.

The information provided in this press release does not identify or include any risk or exposures of AIxCrypto that would materially and adversely affect the performance or risk of the company. By their nature, forward-looking statements and financial projections involve numerous assumptions, known and unknown risks and uncertainties, both general and specific, that contribute to the possibility that the predictions, forecasts, projections and other forward-looking information will not occur, which may cause the Company's actual performance and financial results in future periods to differ materially from any estimates or projections of future performance or results expressed or implied by such forward-looking statements and financial projections. Important factors that could cause actual results to differ materially from expectations include, but are not limited to: business, economic and capital market conditions; the heavily regulated industry in which AIxCrypto carries on business; current or future laws or regulations and new interpretations of existing laws or regulations; the inherent volatility and regulatory uncertainty associated with cryptocurrency investments; legal and regulatory requirements; market conditions and the demand and pricing for our products; the availability of reaching an agreement for the purchase of FFAI common shares; our relationships with our customers and business partners; our ability to successfully define, design and release new products in a timely manner that meet our customers' needs; our ability to attract, retain and motivate qualified personnel; competition in our industry; failure of counterparties to perform their contractual obligations; systems, networks, telecommunications or service disruptions or failures or cyber-attack; ability to obtain additional financing on reasonable terms or at all; litigation costs and outcomes; our ability to successfully maintain and enforce our intellectual property rights and defend third party claims of infringement of their intellectual property rights; and our ability to manage our growth. Readers are cautioned that this list of factors should not be construed as exhaustive.

All information contained in this press release is provided as of the date of the press release issuance and is subject to change without notice. Neither AIxCrypto, nor any other person undertakes any obligation to update or revise publicly any of the forward-looking statements and financial projections set out herein, whether as a result of new information, future events or otherwise, except as required by law. This is presented as a source of information and not an investment recommendation. This press release does not take into account nor does it provide any tax, legal or investment advice or opinion regarding the specific investment objectives or financial situation of any person. AIxCrypto reserves the right to amend or replace the information contained herein, in part or entirely, at any time, and undertakes no obligation to provide the recipient with access to the amended information or to notify the recipient thereof.

Readers are advised not to place undue reliance on forward-looking statements, as there is no guarantee that the plans, intentions, or expectations they are based on will be realized. While management believes these statements are reasonable at the time of preparation, actual results may differ materially. These forward-looking statements reflect the Company's expectations as of the date of this presentation and are subject to change without notice. The Company is not obligated to update or revise these statements, unless required by law.

Forward-looking statements are often identified by words such as "may," "could," "would," "might," or "will," indicating possible future actions, events, or outcomes. These statements involve known and unknown risks, uncertainties, and other factors that could cause actual results to differ significantly from what is expected.

Actual results may differ materially due to factors such as the ability to secure financing, complete transactions, meet exchange requirements, consumer demand, competition, and unexpected costs. These forward-looking statements are based on assumptions that may prove incorrect, and the Company does not assume any obligation to update them except as required by law. Given the uncertainties involved, readers should not place undue reliance on these statements.

You are cautioned not to place undue reliance on these forward-looking statements, which are made only as of the date of this news release. The Company disclaims any intent or obligation to update these forward-looking statements beyond the date of this news release, except as required by law. This caution is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
