AIxCrypto Co-CEO Jerry Wang Shares Weekly Investor Update: Crypto Flywheel Growth

January 26, 2026

LOS ANGELES, Jan. 26, 2026 /PRNewswire/ -- AIxCrypto Inc. (AIxC), an advanced interactive platform bridging Web2 to Web3 with Embodied AI (EAI) and Real World Asset (RWA), today shared a weekly business update from Jerry Wang, Co-CEO of AIxC.

"The velocity of business here in the MENA region is remarkable. While my current travel schedule in Dubai prevents a video update this week, the momentum is too strong to wait, so I'm sharing this update in writing to convey our excitement directly.

This week, we made meaningful progress across talent, community, and product.

1. Global Hiring Initiated

With AIxC Hub user growth exceeding expectations, we are accelerating our strategic talent expansion to match the pace of the business.

We are actively hiring four key roles: **Communications Manager, Growth Operator, Event Manager, and Strategic BD Leader** .

This expansion is driven by a single objective: strengthening our execution capabilities to ensure that every new user and institutional partner is supported by institutional-grade infrastructure.

2. AIxC X Space Launch

This week, we successfully launched our first AIxC X Space event.

We welcomed Wendy O, a leading Web3 influencer with over half a million followers, generating strong engagement across the community.

Going forward, the Strategic Team and I will continue to participate in these sessions. Our Senior Advisor, YT, and I will also be joining AIxC X Spaces in the near future. This will serve as a long-term channel for direct community communication and for sharing our perspectives on market developments.

3. Hub Southeast Asia Region & "Tenki" Feature

We have officially opened the Southeast Asia region for the AIxC Hub to capture this high-growth market.

Next Tuesday, our new feature, **"Tenki,"** will go live.

Beyond user engagement, Tenki carries significant strategic value. It functions as a technical rehearsal for our future **BesTrade AI Agent** .

Through these high-frequency interactions, we are stress-testing our infrastructure and refining complex data models. This process is building the technical foundation required for our upcoming professional trading infrastructure.

Our crypto flywheel at AIxC is now in motion. We have the traffic from the Hub, the attention of the community, and we are bringing in the talent required to scale."
